

Steering Committee

Prof. Zabih Ghassemlooy - Northumbria University, UK - General Chair
Prof. Ismael Soto - University of Santiago, Chile - Co-Chair
Prof. Stanislav Zvánovec - Czech Technical Univ. in Prague, Czech Rep.
Prof. Rafael Pérez Jiménez - University of Las Palmas, Spain
Dr. Luis Nero Alves - University of Aveiro, Portugal
Dr. Lee It Ee - Multimedia University, Malaysia

International Advisory Committee

Dr. Mohammad-Ali Khalighi - Ecole Centrale Marseille, France
Dr. Gholamreza Baghersalimi - University of Guilan, Iran
Dra. Mónica Figueiredo - Universidade de Aveiro, Portugal
Dr. Muhammad Ijaz - Manchester Metropolitan University, UK
Dr. Nicolas Krommenaker - Centre de Recherche en Automatique de Nancy - France
Dra. Anna Maria Vegni - Roma Tre University, Italy
Dr. Juan Carlos Torres Zafra - Universidad Carlos III de Madrid, Spain

Local Organising Committee

Dr. Diego Fuentealba - Univ. Tecnológica Metropolitana, Santiago, Chile
Dr. Miguel Gutiérrez Gaitán - Universidad Andrés Bello, Santiago, Chile
Dr. Cesar Azurdia-Meza - University of Chile, Santiago, Chile
Sebastian Seguel - University of Santiago, Chile
Dr. Pablo Palacios Játiva - Universidad Diego Portales, Chile
Dr. Felipe Salgado - Universidad de Santiago, Chile
Dr. Lídices Reyes-Hung - Universidad de Santiago, Chile
Dr. Ignacio Galeas Cutiño - Universidad de Santiago, Chile
Dr. Vicente Matus Icaza - Universidad de Las Palmas de Gran Canaria, Spain

International Technical Committee

Dr. Thomas Kamalakis - Harokopio University, Greece
Dr. Luis Nero Alves - Instituto de Telecomunicações, Portugal
Dr. Min Zhang - Beijing University of Posts and Telecommunications, China
Dr. Hirley Alves - University of Oulu, Finland
Dr. Hsin-Mu (Michael) Tsai - National Taiwan University, Taiwan
Dr. Asghar Gholami - Isfahan University of Technology, Iran
Dr. Anh T. Pham - The University of Aizu, Japan
Dr. Yeon-Ho Chung - Pukyong National University, Busan, Korea
Dr. Martin Luna - Universidad Autónoma de San Luis Potosí, Mexico
Dr. Richard Demo Souza - Federal University of Santa Catarina, Brazil
Dr. Evelio M. Garcia Fernandez - Federal Univ. of Parana, Brazil
Dr. Samuel Baraldi Mafra - National Inst. of Telecommunications, Brazil
Dr. Daniel Iturralde - University of Azuay, Ecuador
Dr. Salman Khan - University of Eng. and Technology, Pakistan
Dr. Bartolomeu Uchôa-Filho - Federal University of Santa Catarina, Brazil
Dr. Bruno Fontana da Silva - Federal University of Santa Catarina, Brazil
Dr. Kyujin Lee - Semyung University, Korea
Dr. Kyesan Lee - Kyung Hee University, Korea
Dr. Shaharyar Kamal - Kyung Hee University, Korea

In recent years, there has been growing research and development in the field of Radio and Optical Wireless Communications, within academia as well as in industry at a global level. Optical wireless technologies, such as visible light communications, offer lighting, data communications, localization and sensing, operating in unlicensed bands. They are complementary to radio frequency technologies, particularly in 5G, B5G and 6G wireless communications.

The Sixth South American Conference on Radio and Optical Wireless Communications (SACROWC), formerly known as SACVLC, aims to bring together researchers, software and hardware developers, and will be held on November 10 - 12, 2027. A number of keynote and invited speakers are invited to SACROWC 2027 to outline the latest in research and innovation in the field of radio and optical wireless communications. We are inviting you to attend this event by submitting technical papers.

IMPORTANT DATES

Paper submission deadline - August 15, 2027
Notification of acceptance - September 13, 2027
Camera ready paper - October 11, 2027

Dr. Changping Li - *Yangzhou University, China*
 Dr. Joel Serey - *Biopark, Toledo, Brazil*
 Dr. Vicente Matus - *University of Las Palmas, Spain*
 Dr. Carlos del Valle Morales - *Heriot-Watt University, Edinburgh, UK*
 Dr. Rida Zia-ul-Mustafa - *Heriot-Watt University, Edinburgh, UK*
 Dr. Zun Htay - *University College London, UK*
 Dr. Cristóbal Carreño-Mosqueira - *Université de Lorraine - CRAN, France*
 Dr. Wilson Alavia - *Univ. Alberto Hurtado, Santiago, Chile*
 Dr. David Zabala - *Univ. Católica del Maule, Talca, Chile*
 Dr. Pablo Palacios - *Universidad Diego Portales, Santiago, Chile*
 Dr. Cesar Azurdia - *University of Chile, Santiago, Chile*
 Dr. Ali Dehghanfirozabadi - *University of Santiago, Chile.*
 Dr. Ivan Jiron Araya - *Universidad Católica del Norte, Chile.*
 Dr. Jinsong Wu - *Universidad de Chile, Chile.*
 Dr. Claudio Estevez - *Universidad de Chile, Chile.*
 Dr. Sandy Bolufe - *University of Santiago, Chile*
 Dr. Samuel Montejo - *Univ. Tecnológica Met., Santiago, Chile*
 Dr. Gustavo Gatica - *Universidad Andrés Bello, Santiago, Chile*
 Dr. Claudio Valencia - *University of Santiago, Chile*
 Dr. Enrique San Juan - *University of Santiago, Chile*
 Dr. Pablo Adasme - *Univesity of Santiago, Chile*
 Dra. María Constanza Estela - *University of Santiago, Chile*

HOW TO SUBMIT A PAPER

Step 1: Paper perpetration

Your manuscript must be prepared with the templates provided at the IEEE Templates website (<https://www.ieee.org/conferences/publishing/templates.html>).

The final manuscript must be in US letter size, and have a maximum of 6 pages. Do not add copyright legend (this will be added automatically).

Step 2: Check list

Check your PDF file format using the IEEE PDF eXpress platform: Access (<https://ieee-pdf-express.org/>) :
 - Sign in to your account or sign up if you do not have one.
 - Select "Create New Title", fill the data, and select "Submit File for Checking or Converting"
 - Browse your filesystem and choose your manuscript in PDF format file.
 - Select "Upload File" and wait for e-mail confirmation.

Step 3: Paper submission

Submission is via the EDAS platform. <https://edas.info>

Complete and sign IEEE Electronic Copyright Form (eCF), checking the names of the authors and the paper are the same in the form and in the article.

Step 4: Complete registration

Complete your conference registration. Please enter registration at <https://www.sacrowc.cl>

CONFERENCE TOPICS

Optical Networks

AI and ML for optical systems and networks
 Big data driven optical networking
 Data analytics for optical networks
 Elastic, flexible rate and flexi-grid optical networks
 Free-space optical networks
 FSOWC on Education and Society
 Optical camera communications
 Optical network control and management
 Optical network survivability and availability
 Optical vehicular networks
 Optical and wireless convergence
 Routing and spectrum assignment for optical networks
 Software defined optical networks
 Ultraviolet communications and networks
 Underwater optical communications
 Virtualization and slicing in optical networks
 Visible light communications

Mobile and Wireless Networking

Cellular systems, 4G/5G/B5G/6G
 Cognitive radio networks
 Device-to-device/machine-to-machine communications
 Green wireless networks
 Large-scale LEO satellite networking
 Low power wide area networks
 Opportunistic wireless networks
 Pervasive and wearable computing and networking
 Reconfigurable wireless networks
 Software-defined wireless networks
 Underwater wireless networks
 Vehicular networks
 Unmanned aerial vehicle
 Wireless network virtualization
 Wireless multimedia networks
 Wireless networking techniques based on AI
 WLAN, WPAN, and other home/personal networking technologies

Communication Services, Software and Multimedia Applications

Cooperative networking for streaming media content
 E-health, E-governance, E-agriculture, etc.
 High quality service provisioning for multimedia applications
 Location-based services
 ML techniques for video delivery and service
 ML techniques for multimedia content analysis
 Multimedia cloud, streaming, multicast and broadcast services
 Multimedia fog/edge computing and communication
 QoE and QoS
 Quality-oriented routing algorithms
 Real time communication services
 Service orchestration and management
 Service security and privacy
 Triple and quadruple play services

Quantum on Communications

Quantum Photonics & Optics
 Quantum Communications & Cryptography
 Quantum Algorithms & Information
 Quantum Computing
 Quantum Software Engineering
 Quantum Sensing & Metrology
 Quantum Hardware Engineering
 Quantum Applications
 Quantum Education & Training

Communications Theory & Signal Processing

Communication theory of ad-hoc and sensor networks
 Communication theory of distributed and edge computing
 Communication theory of networks and cross-layer design
 Multi-antenna, multi-user and multi-node systems
 Radio communications
 Satellite & space communications
 Signal processing techniques in 5G/B5G/6G
 Signal processing for QoS and QoE based applications
 Signal processing for smart grid and green communications
 Signal processing for sensor networks and IoT
 Signal processing for software defined and cognitive radio
 Signal processing for power line communications
 Signal processing for millimeter and tera-Hz communication
 Theoretical aspects of blockchain and ML in networks

Next-generation Networking and Internet

5G/B5G/6G architecture
 Blockchain in next generation communications and networks
 Content-centric networking
 Centralized-RAN and Cloud-RAN architectures
 Future Internet and next-generation networking architectures
 High speed architectures for next generation routers switches
 Management of service-oriented control plane in 5G/B5G
 Network functions virtualization
 Next-generation access networks
 Next-generation anomaly-intrusion-attack detection prevention
 Next-generation flow management
 Next-generation IP multimedia subsystem
 Next-generation network management and control
 Parallel architectures for next generation routers/switches
 Software-defined networking

AI, Big Data and ML for Networking

AI and ML for 5G/B5G/6G and network slicing
 AI and ML for virtualized and software-defined networks
 AI, neural networks, and deep learning for network management
 AI Education & Training
 Big data for smart cities and smart homes
 Big data for cloud computing, communications and networking
 Big data for smart grids
 Big data with IoT and cyber-physical systems
 Cloud and network data analytics, modelling and visualization
 Cooperative learning for software-defined and virtualized networks
 Data analytics for QoS and traffic classification
 Data analytics for faults and root-cause analysis
 Data-driven management of virtualized infrastructure
 Data-driven management of IoT and cyber-physical systems
 Data-driven management of SDN and data centers
 ML based distributed training and learning over-the-air
 Operational analytics and intelligence
 Predictive analytics and real-time analytics

Selected Areas in Communications

Blockchain in communications and networks
 Cloud, fog and edge computing
 Internet-of-Things
 Satellite Communication Systems
 Smart cities and urban computing
 Smart grid communications
 Social networks, crowdsourcing, and crowdsensing
 Tactile Internet- History of VLC
 VLC in popular culture
